

- Working on fixing static file issue with wifi
- Showed new table layout
- “Right click to print” text on screen to print lists of combos in classes for people at gate
 - Separate from pdf result forms
- Need list of 4H combos for pdfs
 - Horse, riders name, county
- Bertha and Rebecca want to start entering data into the database by March 18th for testing purposes
- Discussed technical thesis information with Rebecca
- Briefly tested out system for bugs
 - When creating show and adding a division want to add the classes under the division at the same time in the same time because the classes are associated with specific division
 - Want to create the entire show/add all divisions/ add all classes before adding the horse rider combos
 - Possible to have 2 shows at once
 - Need to split to first name, last name for 4H
 - Primary key, changing for uniqueness for rider
 - Add edit class functionality
 - Add rider validation error
- Got label maker information
 - 3x8
 - Horse names can be truncated if necessary
 - Don't need to center the information
 - On day of show, they do not get printed label, they will just write it on the back?
