

- Try out installation on new laptop
  - Pass: H0rses4H
- Got a printed page of fixes
  - Want to type class number rather than scroll
  - Fine with table displaying all classes in 1 division
  - Rank class, the ranks should be optional fields
- Room for improvement
  - Layout
    - Table for classes a combo number enroll in, also for show select page
    - List of divisions on show page
    - Show detail page
      - Price (reg, pre-reg), date
    - Merge division + show page(?)
  - Pdf
    - If have  $\leq 2$  rank, dont show/populate result in that division page
    - Combine division (?)
      - What division possibly can be merged?
        - C/A Equitation + C/A Hunter, C/A Eq on Flat
        - Green Hunter (always run with pony)
        - Pony Hunter (s-m/l)
        - Junior/child hunter + amateur
    - Combo num need to be changed to horse name
    - Champ + rchamp, name of horse
  - Label
    - Label maker
    - Print label
- Installation
  - Access through shortcut from desktop
    - Menu - launch horse show/server (open up webpage), stop server, backup database etc.
  - Virtual Machine
    - Put software inside that OS
    - Team will provide a file with everything needed already in the VM
    - Ubuntu
    - Desktop, show menu
    - Need a program to run VM - VirtualBox, VMware
    - Adv: prepackaged, self-contained
    - Disadv: might be a bit slower to run a OS on another OS
