- Had a problem when created one show and tried to add classes to another show
- Need list of horseshow combos by class, and by 4H
- Pulled most recent changes and tested out the system
- Bugs while walking through the system:
  - Problem with add class page : have division name
  - Want to be able to see riders between shows
  - Don't want to make State and zipcode mandatory anymore
  - Want a page that lists combo numbers in combo number order, with a list of riders, horses, and button to edit the combo
  - Need a gate list for each class, go to class page and be able to print the gate list from there for that particular class
  - Preregistered checkbox should be default to checked
  - Display the accumulated scores
  - Point values differ between shows so need to add it to the form so its not hardcoded
  - No way to get out of show add page
  - Change to "Horse Rider Combination Info" rather than "Edit Combo"
- Explained that will be needed to enter the divisions and classes in order
- Champion and reserve champion would be entered manually
- FOR TARUN: Don't need accordion show page, but would be nice
